PROFESSIONAL EXPERIENCE

CHIRRO – JUNIOR WEB DEVELOPER

April 2025– Present

- Designed and developed responsive websites for local entrepreneurs using CMS platforms such as Shopify, Wix, and FlutterFlow, tailored to client branding and business goals.
- Customized themes, integrated third-party tools, and optimized UI/UX to enhance user experience and drive customer engagement.
- Collaborated with clients to gather requirements, deliver project milestones, and provide post-launch support and maintenance.
- Implemented basic SEO practices and analytics tools to improve site visibility, track performance, and support client growth strategies.

TECHNOLOGY TWIST – FULL STACK DEVELOPER INTERN

July– Sept 2024

- Developed a full-stack web application to automate student ID card management using HTML, CSS, JavaScript, and Java (Servlets/JSP), streamlining administrative tasks.
 - Designed backend logic and database integration with JDBC to enable secure CRUD operations and efficient data handling.
 - Conducted end-to-end testing and deployment, ensuring responsive performance and cross-browser compatibility for institutional users.
-

PROJECTS

Personal Portfolio

[Link](#) | [Git Repo](#)

- Built a responsive, mobile-first portfolio using HTML, CSS, and JavaScript to showcase projects and professional skills.
- Integrated Formspree to enable functional contact forms, enhancing user interaction and lead collection.

Recipe App

[Link](#) | [Git Repo](#)

- Built a dynamic recipe search application using HTML, CSS, JavaScript, and the MealDB API, allowing users to search, view, and interact with detailed recipe data.
- Implemented responsive design with Flexbox and CSS Grid, and used asynchronous JavaScript (fetch API) for smooth, real-time data loading across devices.

Rock Paper Scissor Game

[Link](#) | [Git Repo](#)

- Developed a responsive Rock-Paper-Scissors game using HTML, CSS, and JavaScript, ensuring cross-device compatibility and an engaging user experience.
- Implemented real-time game logic, dynamic UI updates, and score tracking to enhance interactivity and performance.
