Career Summary

Full-stack developer with hands-on experience delivering production websites and mobile app workflows on Shopify, Wix Studio, and FlutterFlow. Strong focus on responsive UI, third-party integrations, and clean, maintainable front-end and back-end code. Comfortable working across the full project lifecycle; from build to deployment to post-launch support.

Work Experience

Software Developer | Chirro, Udaipur

April 2025 – Present

- Developed and maintained responsive websites for clients using Shopify, Wix Studio, and FlutterFlow, including 4 e-commerce stores and 10+ CMS-backed business sites and landing pages.
- Customized themes, integrated third-party tools, and implemented UI/UX improvements for client-focused projects.
- Contributed to the development and deployment workflow of a FlutterFlow-based mobile application published on iOS and Android.
- Performed mobile app deployment support, troubleshooting, optimization, and post-launch maintenance.

Full Stack Intern | Technology Twist

July 2024 – September 2024

- Developed a full-stack student ID card management system using HTML, CSS, JavaScript, Java Servlets/JSP, and JDBC.
- Built backend logic and database integration to enable secure CRUD operations and efficient data handling.
- Performed testing, debugging, deployment, and responsive optimization for cross-browser compatibility.

Client Projects

15 live production websites and 1 mobile app delivered for clients at Chirro, spanning Wix Studio, Shopify, and FlutterFlow.

Wix Studio Websites

- Built 10 business and service websites from scratch on Wix Studio, including CMS structure, page layout, and content setup.
- Integrated apps such as Wix Bookings for appointment/reservation flows, along with contact forms, galleries, and SEO setup tailored to each client's needs.

Shopify Stores

- Customized Shopify themes for 5 e-commerce stores, adapting layouts, collections, and product pages to each brand.
- Integrated Shopify plugins and third-party apps to support features like product variants, payments, and marketing tools.

Mobile Application

- Contributed to a FlutterFlow-based mobile app published on iOS and Android, using Supabase for backend data and REST APIs for integrations.

Personal Projects

Recipe Search Application

- Built a responsive recipe search application using HTML, CSS, JavaScript, and the MealDB API, featuring real-time recipe fetching and an interactive UI.

Student ID Card Management System

- Full-stack system using HTML, CSS, JavaScript, Java Servlets/JSP, and JDBC, with secure CRUD operations and database integration.

Rock Paper Scissors Game

- Interactive browser-based game built with HTML, CSS, and JavaScript, featuring dynamic UI and game logic.
